INTRODUCTION

SNV- Ghana and the USAID funded Sustainable Fishery Management Project (SFMP) believe that children should enjoy all their basic rights including the right to education, right to play and the rights family life. CONCLUSION

This was a successful training which concluded with many positive feedback and reviews from the participants. There was good attendance and engagement from participants who were open to understand the issues on child labour and to collaborate with SFMP to create awareness of the issue of child labour and child trafficking.

SNV and its partners will continue to carry out such programmes in the Central Region to create awareness, develop capacity and fill any knowledge gap identified to help eliminate child labour and trafficking.

Feedback and contributions from participants will be used in subsequent events, trainings, updating the CLaT assessment toolkit and the stakeholders' capacity development.
